

ASSIGNMENT 2 REPORT

1. THE ORDER OF USING ASSIGNMENT FILES

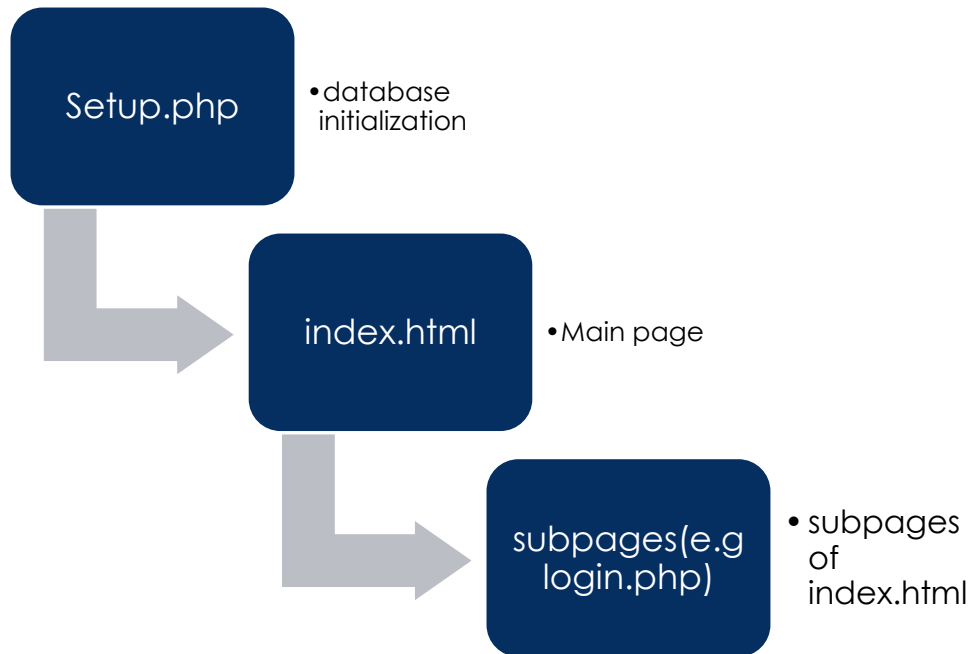

Figure 1. Process of the order of using assignment files

As the figure 1 shows, basically the setup.php is the file should be started at the beginning. Then, the index.html should be used to view the quiz fun site. Finally, all the rest files are subpages of index.html (they can be used via index.html).

2. THE PURPOSE OF EACH FILE IN ASSIGNMENT 2

- ✧ Setup.php (set up all relative tables of db339 database).
- ✧ Index.html (main page of quiz fun website).
- ✧ Canvas_script.js (javascript file for drawing canvas).
- ✧ Index_scripts.js (javascript file for index.html. It is used for controlling content in mainpage and connecting front end to back end).
- ✧ Quiz_script.js (javascript file for quiz part. It is used for getting questions from database and outputting feedback at front end).
- ✧ Functions.php (It Contains database login details and several useful functions for other php files).
- ✧ checkLogin.php (php file for checking whether user logged in or not).

- ✧ checkUser.php (php file for checking whether user exists or not).
- ✧ Signup.php (php file for signup process).
- ✧ Login.php (php file for login process).
- ✧ Logout.php (php file for logout process).
- ✧ Session.php (php file for control session).
- ✧ unsubscribe.php (php file for unsubscribe process).
- ✧ Members.php (php file for getting member data and sending to members subpage).
- ✧ Profile.php (php file for getting user profile and sending to edit profile subpage).
- ✧ Quiz.php (php file for getting quiz data and sending to quiz subpage).
